

DarusSalam Seminary

High School Science Teacher (Grades 9th – 12th)

DarusSalam Seminary is seeking an energetic and dedicated individual to serve as a High School Science Teacher (Grades 9th – 12th). The assignment will start in Summer 2020. We are seeking a creative, organized, team-oriented individual with good communication skills to join our growing and devoted teaching staff. Proficiency in using computers and technology as adjuncts to teaching is required.

ESSENTIAL DUTIES AND RESPONSIBILITIES INCLUDE THE FOLLOWING:

Instructional:

- Classroom instruction of a Physiology & Health, Biology, and Chemistry curriculum.
- Prepare thoughtful, polished, motivating lectures for the curriculum.
- Employ a variety of teaching methods that reflect student aptitudes, learning styles, and backgrounds.
- Utilize a variety of assessment tools to assess student progress and develop additional instructional activities as needed.

Teaching and Learning Environment:

- Create a motivating and positive classroom environment.
- Demonstrate classroom management skills.
- Set clear classwork and homework expectations.
- Maintain current textbooks and instructional resources that support classroom learning.
- Strive to understand students' strengths and challenges and cooperate with the student, parents, and administration in finding solutions to student challenges.
- Address parents' queries and concerns in a timely and professional manner.
- Communicate and cooperate with colleagues and administrative staff in furthering the greater mission of the institution.

Requirements:

- Bachelor's degree (Master's degree preferred)
- Prior teaching experience

Job Type: Full-time
